Description

Exocet Anti-Bug Kill Fuel Additive 5L

A fuel soluble biocide and preservative which gets to grips with the first sign of microbiological contamination ('diesel bug'), the continuous blocking of filters with a slimy substance.

Exocet Anti Bug Kill is formulated for current and immediate infestation and suitable for domestic bulk fuel storage or added directly into a vehicle/machine fuel tank.

Anti Bug Kill can be dosed into fuel via either batch treatment or as part of a continuous additive injection regime.

Before treating the fuel, it is advisable to drain or pump any free water from the bottom of the fuel tank and then add the correct dose of additive based on the total capacity of the tank.

Does not adversely affect fuel combustion or emissions quality and fully compatible with steels, aluminium, zinc, polyethylene and polypropylene vessels.

Has no adverse affect on waste water systems or municipal sewage treatment.

Fully approved as a fuel additive by: Mercedes Benz, DAF, MAN, NATO, Deutz, Shell and others.

Anti Bug Kill (XO1945XB): 1 litre treats 5,000 litres and currently available in 1 litre & 5 litre containers.

Recommended for Professional & Trade use. Buy online and collect from the Parts Counters in one of our 19 Branches across the SE & East of England.

Please enquire for other sizes: 100ml, 200ml, 500ml, 25ltr & 200ltr (drum).
