

Private: Honda HHT36 AXB  
Cordless Strimmer Bundle

# Private: Honda HHT36 AXB Cordless Strimmer Bundle

Our Price: £380

## Description

When you need to tame the toughest undergrowth, you can count on Honda's cordless brushcutter. Powered by a 36v brushless EC motor with direct drive to the cutting head, it delivers sustained power during use, with no need for servicing.

The brushcutter is based on the Honda University Battery System, so the battery can be swapped out in seconds. Combined with the incredible performance of Honda's Li-ion batteries, this means you can work right through the day without taking forced breaks.

Safety is paramount, so the blades releases automatically if it jams, preventing the motor from stalling. With IPX4 certification\* you can even use the brushcutter in wet weather, making it indispensable all year round.

Designed for all-day comfort, the brushcutter is based on a lightweight design. A new ergonomic bike handle and adjustable harness come as standard and because its battery operated, vibration and noise levels are low, making it ideal for early starts and late finishes.

**\*Comes complete with 4Ah battery and Charger giving a run time of 33 minutes with the Nylon Line and 60 minutes with the 3 Tooth Blade.**

We are an authorised **Honda Dealer** and can provide full service back up for your equipment. Check out other products in the range:
