Description

Stihl Genuine Digital Wood Moisture Meter

This compact, handheld device accurately measures the moisture content of wood.

Seasoning wood reduces the moisture content and helps the wood to burn efficiently, helping to improve heat output.

Ideally wood should be dried until the moisture content is 20% or less.

The clear display and simple controls make taking measurements of wood, plaster and cement easy.

We are an authorised **Stihl** dealer and can provide full service back up and maintenance for your Stihl equipment.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
