

Lighthouse Elite LED Rechargeable Inspection Wand 800 Lumens

47-05133

Our Price: £40

Description

Lighthouse Elite LED Rechargeable Inspection Wand 800 Lumens

A versatile slimline light source ideal for illuminating hard to reach areas. The super-slim light blade can fit through tight gaps making it a great aid when working on boilers, fitting kitchens, servicing vehicles etc.

As the light does not reflect back and dazzle the user, the task in hand is so much easier to see plus its high-power COB LED provides an exceptionally clear white light output of 800 lumens for up to 10 hours.

Complete with two operational modes; floodlight from the main LED or as a spot beam from the LED located on the end of the wand, both of which can be dimmed by turning the rotary dial.

The body is fitted with a rubber coating to protect paintwork and also IP67 rated, so the light can be submerged in water for up to 10 minutes at a time (ensuring the USB charging cover is properly sealed).

Other handy features include a magnetic base for hands-free use, a ball joint allowing the light to be angled to the exact location needed along and plastic coated metal, hanging hook for increased versatility.

A charging indicator light bar displays the remaining battery power with a simple recharge using the USB charging cable supplied and compatible USB charger (1-3A 5V).

Overall dimensions: 41.4 x 5.2 x 4.8cm.
