## Karcher High Pressure Cleaner HD 4/8 Classic

With its compact size, low weight, retractable pull handle and robust wheels, the HD 4/8 Classic high-pressure cleaner has an especially ergonomic design and is very easy to transport.

Thanks to a working pressure of 80 bar and an hourly water volume of 400 litres, it is thus the ideal companion for tradesmen and for diverse applications, including the building industry or for occasional vehicle cleaning.

Features include a reliable three-piston axial pump, an induction motor and automatic pressure relief that effectively protects all hydraulic components. Furthermore, the pressure relief system reduces the traction force on the trigger gun, thus allowing fatigue-free periods of work.

Dimensions: L 335 x W 320 x H 845.

## Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
