

Stiga Aero 132e Kit – Battery powered hover mower

MT-STMWAERO132E

Stiga Aero 132e Kit – Battery powered hover mower

MT-STMWAERO132E

Our Price: £166

Description

Getting tangled in cords, plugging and unplugging extension leads, or lugging heavy mowers around steep slopes is now a thing of the past. STIGA Aero is the first cordless hover mower. It means you can cut lawns up to 100sqm on one charge – quickly, easily and painlessly. This is thanks to the design and powerful 750W motor. The STIGA patented cutting deck “traps” the air and gives it a harder time exiting the deck, which makes the air pressure increase and therefore improves the lifting capacity of the whole mower. The special design of the blade, flat but with angled tips, is literally slicing the grass, without creating any disturbance to the air cushion underneath the deck. Blade and deck together optimise energy efficiency and cutting performance, for great results.

Power comes from two STIGA ePower 20V batteries, held in the battery compartment on the handlebar for easy access and improved weight balance. When you're not using the STIGA Aero, you can switch the batteries with your other 1-series STIGA gardening tools – so you and the family can get on with other jobs.

Small, light yet incredibly strong, the mower is designed for ultimate convenience. On-off handlebar control means there's no fiddling with cutting heights or blade speeds. And when you're finished, just hang it from a nail on the wall or simply fold it away in a corner.

- The first cordless mower that lifts from the ground
- Hassle-free – mowing up to 100sqm on one charge
- Efficient – Patented deck design improves runtime and performance
- True performance – New blade design by STIGA and powerful 750W motor
- Shareable – ePower 20V batteries work with all 1-series STIGA tools
- Easy to store – hangs from a wall or folds away neatly

Stiga Aero 132e Kit – Battery powered hover mower

MT-STMWAERO132E

Attributes

Technical Data	
Power source	Lithium-ion Battery
Battery capacity	2 x 4Ah
Power	0.75kW
Voltage	20v
Maximum working area	100m2
Cutting method	Mulching
Deck material	Polypropylene
Handlebar type	Ergonomic with double hand switch and cam locks + soft grip
Weight	7kg

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
