Description

Leovet Frog Ade with Hoof Brush 200ml

A natural effective care for soles of hooves and frogs as well as hoof conditions associated with damp and dirty environments.

Works by drying out the the sole and frog, with added Jojoba oil providing a natural protective coating to the hoof.

The attached brush helps to remove decayed horn and supports blood circulation by giving the sole and frog a good massage.

Easy to dispense onto frog & sole. Carefully work into any cracks until a light foam appears then leave to dry.

Apply daily first week, thereafter 2-3 times per week.
