Description

Briswim Goldifloc Filter Aid Tablets

The Briswim Goldifloc Filter Aid Tablets aid clarity of pool water. Dissolving slowly, Goldifloc tablets release a coagulant to help filter sand, hold back the small particles which cause cloudiness. Sparkling water results from removal of calcium carbonate particles, fragments of dead algae and other fine particulate matter which can often prove difficult for the average sand to filter to remove.

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
