Hozelock Aquastop 2065 Hose Connector for 3/4" Hose

47-41026

Our Price: £10.99

Description

Hozelock Aquastop 2065 Hose Connector for 3/4" Hose

The Aqua Stop connector has an internal valve that stops the water flow when an accessory (eg a spray gun) is disconnected. This saves you having to go back to the tap to turn the water off when you are switching between accessories.

Features and Benefits:

- Suitable for use with all 19 mm /3/4in and 15 mm /5/8in hose.
- All internal parts are made from ultra tough engineering plastics for a long leak free life.
- The connection to the tap is guaranteed secure up to 10 bar, thanks to a triple locking system.
- The sleeve is easy to use even when wet because of the twin soft touch pads.
- The hose is firmly connected thanks to barbs that connect with the inside and outside of the hose.
- Hose kinking , Hose swelling, and hose leaking at the connection point with the fitting is virtually eliminated due to the ingenious flexible hose-tail on the nut.
