

Stiga SMT100AE Cordless Multi-Tool

MT-STSM100AE

Our Price: £154.99

Description

Stiga SMT100AE Cordless Multi-Tool

If standing on a ladder is the only way you can trim tall hedges, bushes and trees, the SMT 100 could be the ideal solution. This versatile, battery-powered multi tool takes pruning and cutting tasks to new levels of effortless handling and manoeuvrability. The 20V 4Ah battery fits neatly into the compact design of the soft grip handle, making the whole tool feel comfortably balanced. You also get 70 minutes of cutting time and 20 minutes of pruning time on a single charge. Once you've hooked the multi tool into the harness, simply plug in either the hedge trimmer or pruner saw onto the end of the streamlined 55cm telescopic shaft and extend it up to 2.75m (user's body + tool) – that's nearly the height of an average two-storey house. For hedge trimming, the 45cm laser cut blade is long enough to tackle most overhead jobs. And thanks to the 18mm spaced teeth and 112° rotating cutting head, it makes light work of even medium-thick branches.

For pruning, the high-quality bar and chain gets in and around the tightest spots – while the automatic oil pump keeps every part of the pruner running smoothly. Once you've hooked the machine into the harness, simply plug in either the hedge trimmer or pruner saw onto the end of the streamlined 55cm telescopic shaft and extend it up to 2.55m (user's body + tool) – that's nearly the height of an average two-storey house. For hedge trimming, the 45cm laser cut blade is long enough to tackle most overhead jobs and even medium-thick branches with ease, thanks to the 18mm spaced teeth and 112° rotating cutting head. For pruning, the high-quality bar and chain gets in and around the tightest spots – while the automatic oil pump keeps every part of the pruner running smoothly. Battery and Charger are included.

Built today for tomorrow, this model comes with a minimum 2-year Warranty.
