

Echo SRM2621TESU Brushcutter

XH-FCBCSRM2621TESU

Our Price: £415

Description

A lightweight, professional petrol U handle brush cutter with high torque.

The ECHO SRM-2621TES/U is an exceptionally powerful U handle brush cutter with Easy Start for effortless starting, a heavy duty air filter to keep the engine free from dust and debris and a high torque. When dealing with tall grass and thick brush, the high torque gear case provides consistent power and ensures precise cutting is maintained throughout the job. At just 5.7kg with a 25.4cm³ professional grade engine it has the power and manoeuvrability to take on an incredibly versatile range of tasks.

U handles are ideal for large scale professional jobs as they take the weight off the operator whilst providing a consistent range of movement.

By controlling the RPM the high torque gear case ensure smooth cutting whether it's short grass or tall, dense brush. This means you can move freely through differing areas of density without problems.

Attributes

Technical Data	
Engine displacement (cm³)	25.4
Output (kw)	1.0
Dry Weight (kg)	5.7
Standardised Nylon Head	SF400

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
