Description

Curver Tuff Tub Black Bucket 69L

Useful for storing many household or industrial items, both indoors or out, this large capacity black bucket made from polypropylene with two rope handles,

Popular amongst equestrians as a mobile water trough when a mains water supply is not available. Apart from the flexibility of being able to locate it where horses are being grazed, the rigid outer makes it unlikely to be kicked over or trodden on. Logistically too, tubs of this type makes light work over their flexible counterparts when having to replenish water stocks using portable water containers.
