## Seeland Heat Power Bank

Sturdy and powerful, with the capacity to rapidly and efficiently get Seeland & Härkila Heat products up to temperature whilst also charging another electronic device.

This handy power bank contains a Lithium-Polymer battery with a capacity of 10,000mAh and input/output of 5V/2.0A.

The charge time is around 6 hours and the power bank can be recharged approximately 500 times.

The power bank can be used at temperatures between -10C & 45C with assured protection from short circuits, over-voltage, incorrect connection and overheating.

Complete with micro-USB charging cable, USB output port and LED indicator to show the battery's level of charge.

When not in use, defaults to standby to save battery power.

Size: 90 x 67 x 26mm. Weight: 203g.
