Toro 21810 TimeMaster 76cm with Blade Brake Clutch

WY-MW21810

Description

Toro Timemaster 21810

Designed to save you time, this unique petrol-powered Timemaster® has a powerful Briggs & Stratton® 223 cc engine and a wide 76 cm cutting width, helping you zip through even extra-large lawns of more than ¼ acre (1,000 m²).

The self-propelled Automatic Drive System smoothly adjusts to your preferred walking pace. You can set the mower to your preference of recycling, bagging or side discharge, and the 88 litre grass bag lets you spend more time mowing instead of emptying.

The Blade Brake Clutch lets you keep the engine running while stopping the blade rotation, perfect for crossing gravel paths or to pause a moment to remove an obstacle.

You'll save storage space thanks to the Quick Storage Handlebar that lets you stow it in the upright locked position.

Adding to the ease is a washout port for fast deck clean-up.
