Description

Spear & Jackson Razorsharp Geared Mini Bypass Loppers

Perfect for tackling tasks in tight or confined spaces, these garden tools combine practicality and performance.

The geared cutting action delivers increased power with less effort, making each cut smoother and more efficient.

Crafted with high-carbon steel blades, they ensure exceptional strength and long-lasting sharpness, while the PTFE coating provides rust resistance and a smoother cutting experience.

Lightweight yet robust tubular aluminium handles, paired with non-slip soft grips, offer comfort and control, even during extended use.

- Overall length: 450mm (17 5/8")
- Blade size: 82mm (2 5/8")
- Maximum cut: 30mm (13/16) diameter

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
