Description

Tom Chambers Mealworm Munch Bird Food 500g

Mealworm Munch is a high-protein, energy-rich treat that's loved by garden birds like robins, blackbirds, and wrens.

These 100% dried mealworms are perfect for year-round feeding, providing a natural boost of nutrition during nesting, moulting, and colder months.

Serve alone or mix with other seed blends to enhance your feeding routine.

Ideal for use on bird tables, ground feeders, or mealworm-specific feeders.

This extra-value pack is a convenient way to attract more birds to your garden, day after day.
