## Description

### Sealey 3040AR 3 Tonne Low Profile Trolley Jack with Rocket Lift

Designed for performance, safety, and convenience, this Low Entry Trolley Jack features a minimum saddle height of just 100mm, making it ideal for vehicles with low ground clearance.

The Rocket Lift technology quickly brings the lifting arm into position with minimal effort, while the heavy base and large jacking saddle enhance stability under load.

A built-in magnetic tray keeps wheel nuts and fittings close to hand, and the universal joint release mechanism ensures controlled, safe lowering every time.

Perfect for workshops, garages, and motoring enthusiasts who demand efficiency and reliability.

## Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
