Description

Silky Zubat 330mm Professional Pruning Saw

This best-selling, professional, heavy-duty hand saw has been crafted with a 13inch, curved, mono-constructed blade and part of the basic equipment range of every self respecting arborist!

The Zubat quickly gets to grips on fresh wood due to a combination of large precision ground teeth with four cutting angles and an ergonomic soft grip handle which really stick in your hands.

Exceptional in design, strength, balance and superior finish, the Zubat provides faster cutting speeds with less effort and can be safely stored away inside its custom fit sheath when not in use.

The Zubat Professional blade can also be mounted on the Zubat Professional Pole Saws series, which means you can use this saw both as a pole saw and a hand saw.
