Description

Eliet Vector 4S PRO Garden Shredder

Eliet Vector 4S PRO

Compact design. Professional power. Trusted performance.

The ELIET Vector 4S Pro is a professional-grade shredder tailored for demanding users who need compact dimensions, all-season versatility, and powerful performance. Whether handling bulky, leafy hedge trimmings or branches up to 80mm thick, this machine is designed to process all types of green waste with minimal effort.

At its core is a manual-start Honda engine, chosen for reliability and simplicity. Thanks to the low-resistance blade system, starting the engine is smooth and hassle-free—every time. ELIET has deliberately embraced a spartan, low-maintenance design philosophy, ensuring this shredder is always ready for action with minimal upkeep.

Large Inlet Opening for Bulky Waste

The Vector 4S features a wide, flat hopper base with rounded contours—perfect for handling bulky hedge cuttings. This ergonomic design guides material smoothly into the feed system, reducing snagging and improving safety.

Automatic Feed Roller with Sharp Claws

The 156mm powered infeed roller ensures strong, consistent throughput. Sharp claws grip branches firmly—even large, leafy material—while maintaining a feed rate that protects engine performance and minimises operator intervention.

Intuitive & Easy Operation

Control levers are located on both sides of the hopper, offering ambidextrous access to feed, stop, and reverse functions. The mechanical hydraulic valve is robust, responsive, and easy to operate.

280° Rotating Plastic Blowpipe

Position the machine where needed, then direct chip output wherever it suits you. The lightweight plastic blower pipe rotates 280°, allowing for maximum flexibility and reduced risk of blockages.

High-Visibility Safety Features

Safety comes first: a three-sided safety bar surrounds the feed opening, allowing hands-free emergency activation. A clearly visible emergency stop button ensures immediate shutdown, accessible to both operator and bystanders.

Wide Turf Tyres for Minimal Lawn Impact

Built as a true "passepartout", the Vector 4S is easy to manoeuvre through private gardens. Wide, low-pressure tyres minimise lawn damage and leave no tracks—ideal for year-round use.

Fast Pitstop Maintenance

The most wear occurs at the blade system. ELIET's smart Fast Pitstop access hatch provides tool-free entry to blades and the TurboDischarge™ impellor in under 30 seconds—making routine maintenance quick, safe, and efficient.

Attributes

Technical Data	
Engine	Honda GX390
Shredding Technology	Eliet AXE Principle, Turbo Discharge
Shreddable Diameter	80mm
Capacity	3 m3 / 350 kg per hour
Weight	265kg
Feed Intake Opening	520x540mm

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
