## Description

### Nikwax Tech Wash Wash-In Cleaner 300ml

The No.1 easy to use, high performance cleaner for wet weather clothing and equipment. Cleans effectively, reviving breathability and water repellency.

Is your waterproof clothing & equipment soaking up water because the Durable Water Repellency (DWR) has been compromised by dirt or it has been cleaned using a conventional laundry detergent?

FACT: Dirt attracts water! Household detergents leave water attracting residues behind, leading to fabric 'wetting out' in wet or damp conditions.

FACT: Routine cleaning with Nikwax Tech Wash® will not only remove contaminants but also revitalises DWR, even on relatively new fabrics or those treated with a waterproofing agent.

FACT: You don't need to re-waterproof every time you clean. Regular cleaning will enhance the performance of your gear and you should be able to clean 5-6 times with Nikwax Tech Wash before it requires re-waterproofing.

So there we have it... This non-detergent based Nikwax Tech Wash is the perfect washing liquid for non-waxed garments & accessories.

Can your wet weather gear really afford to be without it this season? Click [HERE](#) for Washing Instructions.
