Description

Tractor Ted Big Machines DVD

Tractor Ted pays a visit to an enormous arable farm in East Anglia where he sees many of the biggest farm machines at work during harvest which sees Fastrac tractors and trailers running day and night to keep up with two enormous Claas combine harvesters as their grain tanks continually fill up. There isn't enough room in the grain store for the wheat to be kept safely under cover so a new one is being built using all sorts of Top Gear type favourites such as excavators, diggers, cement mixers, loaders and a huge articulated hauler. In the meantime the grain is tipped out onto the yard. Lorries come and go taking the grain from the store and off to the millers. You can see why this film is a best seller!

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
