Description

Honda UMK 435 LE Petrol Strimmer

Manoeuvrable, versatile and interchangeable.

These brushcutters will make light work of unkempt undergrowth and hard to reach areas around the garden. With Honda's brushcutter range, there will be no stubborn undergrowth left to hide.

You can confidently go where no other brushcutter can, with their extremely reliable 4-stroke garden tools.

Honda's brushcutters also feature an extraordinary type of non contact bearing - so special, it is even used by the likes of NASA. These bearings are known for their resistance to dust contamination, are fantastic for high speed work but are also extremely quiet.

We are an authorised **Honda Dealer** and can provide full service back up for your equipment. Check out other products in the range:
