Our Price: £2797

Description

Atco GT38HR Side Discharge Lawn Tractor

Powered by STIGA with a punchy 432cc single cylinder, dual-balance crankshaft design and easy start, making for a smoother, more comfortable drive when mowing.

The GT 38HR handles large grassland areas with ease thanks to the tractor's side discharge deck - grass cuttings are evenly distributed in tidy rows where they will gradually wilt away.

An electromagnetic PTO clutch means zero effort is required to stop and start the blades; while a snap-on hosepipe connection point ensures removing any build-up of debris from the underside of the deck is a hassle-free operation.

Other noteworthy features include deck mounted gauge wheels ensure a smooth finish with no unsightly scalping; multi-stage height-of-cut adjustment for enhanced flexibility of use; and an infinite increment hydrostatic transmission for precision speed control and superior manoeuvrability.

The GT 38HR is a perfect match for areas up to 8000m² (2.5 acres).

We are an authorised **Atco** dealer and can provide full service back up and maintenance for your Atco equipment.
