Hayter Harrier 48 Pro – 479B

HY-MWHA479

Our Price: £1299

Description

Hayter Harrier 48 Pro - 479A

Mow like a pro with our Harrier® 48 PRO from our professional rear-roller lawn mower range, now with the first Crank-Safe Blade Brake Clutch (BBC) System!

Save your shoulders by not having to restart the engine over and over again. Instead, thanks to the Crank-Safe BBC System you can stop only the blade to empty the grass bag and continue to use the drive system to travel across pavements to get to your next patch of grass.

The commercial-grade, fixed speed (3.2mph), auto-drive machine provides a helping hand to get the job done faster. Combining that with a strong aluminium cutter deck and steel rear roller, you will be sure to give a great "Hayter Stripe" finish to every lawn day-in day-out.

Features and benefits:

- Aluminium cutter decks for incredible strength and corrosion resistance. High strength and durability to low weight ratio.
- Two-piece steel ribbed rear rollers provides superior traction, manoeuvrability and avoids turf marking when turning.
- Easy-wash hose connector port offers a convenient and easy way to clean the cutting chamber, ensuring optimum performance.
- Maximum collection performance is achieved with a highly unique deck underside and blade profile designed using aerospace technology.
- Create perfectly sharp stripes with the integrated ribbed rear roller. For effortless mowing with great results.
- Fixed speed auto-drive system provides optimum productivity.
- Vari-Pitch™ cutting technology automatically adjusts the cutter deck to increase airflow when set to cut longer grass.
- Rear carry handle aids transport by providing a suitable contact-point for lifting the mower
- Front bumper provides protection for the deck and wheels.
- Large capacity grass bag stands on end when full.

We are an authorised **Hayter** dealer and can provide full service support and maintenance for your Hayter product.
