Description

Bruder Quad Bike with Driver 1:16 Scale

Combining the fun of a motorcycle with the flexibility of an off-road vehicle, it's little wonder quads now play an important role in Forestry, Farming and Construction.

Featuring a modern and high quality design, the suspension of both axles along with steer ability of the front axle make this quad extremely versatile and manoeuvrable over difficult terrain.

The figure has been dressed to complement an equally off road feel and optimised for a sporty posture through firm grip handlebars and drivers seat.

Finished with a removable luggage rack, tool holder and good road holding tyres, there's plenty of extended play once the workday is all done.

Approximate dimensions: 16 x 9.3 x 9.3cm.
