Description

Miracle Gro Chicken Manure Soil Enricher 10kg

Chicken manure is a completely natural plant food and one of the most widely available on the market. Used for many decades by farmers, chicken manure is also a popular choice for home gardeners looking for a non-synthetic plant food.

Improves soil conditions and encourage strong & healthy growth whilst containing the correct ingredients and trace elements for plants requiring a neutral pH.

Although quite variable, the pH of chicken manure tends to lean towards the alkaline side of neutral, so chicken manure should not be used to feed acid loving (ericaceous) plants.

Supplied in a convenient easy to carry 10kg tub with handle.
