Wolf Garten DRM30 Multi-Change Soil Rake

39-88015

Our Price: £19.99

Description

Wolf Garten DRM30 Multi-Change Soil Rake

Manufactured in Germany to the highest levels of engineering, this universal rake features a solid, high-quality steel head and curved teeth for easy penetration and movement through soil.

It's designed to work most effectively when you maintain an upright position to help avoid any unnecessary back strain and aids a variety of garden projects such as clearing up garden debris, loosening soil and levelling off seed beds in preparation for planting.

Featuring a working width of 30cm, the DRM30 is ideal for use in allotments as well as larger flowerbeds and borders.

Part of the unique multi-change system, the tool head can be inter-locked with one of the many length handles in the Wolf Garten range to help prevent discomfort when working.

To remove or swap it with another tool head from the range, simple press the release button on the upper part of the handle.
