Atco GT 30H Petrol Lawn Tractor

MT-AORDGT30H

Description

Atco GT 30H Petrol Lawn Tractor

There is no need to compromise on power or performance with the compact GT 30H, thanks to a STIGA ST 450 engine, supplying a hefty 9.2hp to the blades and rear drive wheels; while the OHV technology ensures you'll enjoy quiet, low emission operation and excellent fuel economy.

Superbly versatile, the GT 30H comes with a 84cm cutting width, seven pre-set heights of cut ranging from 25-80mm and can be set up to either mulch, rear discharge or collect your grass clippings. (Rear deflector and mulching kit available separately).

The infinitely adjustable hydrostatic transmission means you'll be able to glide around and between obstacles effortlessly. This Garden Tractor also comes equipped with a series of a gauge wheels that work to eliminate unsightly scalping that can occur when turning on sloping terrain, ensuring a neat, even finish.

There's also a snap-on hose connector for straightforward under deck cleaning; a 'collector full' buzzer that lets you know when it's time for a trip to the compost pile; and convenient from-the-seat emptying of the ample 240-litre catcher.

Adding to its versatility as a garden tractor, there is the opportunity to mulch, rear discharge or collect clippings and to fit a useful trailer hitch. Mulching plug, rear discharge deflector and trailer hitch are all available separately.

This model is designed for lawns up to 6000m² (1.5 acres) in size.

We are an authorised **Atco** dealer and can provide full service back up and maintenance for your Atco equipment.
