Description

Johnson & Jeff Superior Wild Bird Food with Fruit

A husk free mix means no mess around the feeding area but more importantly a higher nutrient level and energy intake for the birds.

Safer for them too, as birds are constantly on the look out for predators so foods they can eat straightaway are of huge benefit.

Attracting a wider variety of birds than standard mixes plus contains additional fruit for Blackbirds, Starlings and Song Thrushes.

Flavoured with aniseed oil as an attractant and digestive aid as well as vegetable oil to increase overall food value.

Especially good for Tits, Brambling, Finches, Dunnock, Bunting, Sparrows, Linnet, Thrushes, Nuthatch, Siskin, Stonechat, Starling, Blackbird & Yellow Hammer.

Contains only small raisins so that the mix will still flow through a tubular feeder.

Available in 2kg & Economy 12.75kg Bags.
