Haemmerlin Ranger 230L Twin Wheeled Galvanised Wheelbarrow

The Pro Select range of wheelbarrows have been developed to meet specific market needs and boasts an impressive 230L load capacity for those who need even more space.

Ergonomically designed, the twin axle affords perfect balance when transporting heavy loads and aids the end user to maintain a comfortable working position. The frame is extremely strong with double tubing that guarantees a solid chassis and comes fitted with Bi-Material handles to reduce vibration & prevent slipping.

Hosting a galvanised tray which ages better on the exterior and pneumatic wheels with an extra large tyre profile, the Ranger is ideal to manoeuvre over a variety of surfaces, leaving it to lighten your load and take the strain out of those day to day tasks.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
