Our Price: £130

## Description

### Portek Logmaster Heavy Duty Saw Horse

Using a chainsaw is hazardous, and even the most experienced operator can become careless and oblivious to the dangers – especially with a repetitive job like cutting logs. Prolonged periods of using a heavy chainsaw can also produce backache and increase the likelihood of short cuts taken.

Constructed with an all-welded thick plated steel construction of 17kg and heavy duty chainsaw vice, the Logmaster fits ANY chainsaw and can overcome all these problems.

Probably the SAFEST Saw Horse available, this original design clamps the chainsaw to the Saw Horse with the bench taking the full weight and not your back! This then leaves the operator free to hold the log in position with one hand and swing the chainsaw through the log with the other.

A simple solution to an age old problem, leaving you more time to relax in front of the fire and less time working out in the cold.

Put SAFETY FIRST. Beware of cheap copies and choose the best.

We are an authorised **Portek** dealer and can provide full service back up for your equipment.

## Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
