Description

Stihl HLA56 Cordless Long Reach Hedge Trimmer

SH-HA010112910

Stihl HLA56 Cordless Long Reach Hedge Trimmer

Lightweight cordless long-reach hedge trimmer for cutting taller hedges and shrubs in your garden. Double-sided blades in a droplet shape to help guide hedge material towards the cutters, adjustable head for cutting at angles ranging from -45° to +90°, detachable shaft for easy transport. Carrying length: 115 cm.

High cutting performance - The cutting teeth are droplet shaped with a large tooth spacing and integrated cut protection to ensure high cutting performance.

Simple Operation - The HLA 56 has a locking lever (orange front), ERGO lever (black) and main trigger lever (orange below). The locking lever is self-resetting and prevents unintentional switching on of the device. When the ERGO lever and shift lever are pressed, you can work continuously with ease.

Simple head angle adjustment - With the help of the large angle adjustment button, the blade angle can be easily adjusted without tools from -45 ° to + 90 ° for cutting the top of the hedge and sides.

Split shaft - The shaft of the HLA 56 is easily separable thanks to the clamp with toggle screw. The tool can therefore be easily transported and stored.

Loop handle - The comfortable all-round handle ensures great freedom of movement and easy handling, even in more confined spaces.

Tip protection - The tip protector allows you to cut closer to the ground or along walls and helps protect the blades from damage.

Wall mounted storage bracket - Thanks to the wall bracket, the individual shaft components can be stored off the ground helping to save space in your shed or garage.

We are an authorised Stihl dealer and are one of the first to stock the new Stihl cordless range. Why not click [here](#) to check our wider range of Stihl products?
