Description

Mountfield SP53 Elite Petrol Lawnmower

The powerful Honda GCVx170 Autochoke engine and the 51cm cutting width combine to produce a hardworking, dependable and easy to use mower. The SP53 Elite features a robust steel chassis and with that wide cutting width and powerful Honda engine, will make light work of all lengths of grass.

Cutting height is easy to adjust within the 22-80mm range using an ergonomic single lever. A front skid plate helps to minimise scalping and improve the cut. Clippings are blown into the capacious 60-litre canvas collection bag which also features an indicator to show when the bag is full.

A mulching plug is included, that is simple and easy to fit enabling you to finely cut the grass clippings into a nitrogen rich mulch and recycle them back into the lawn. – This is also a great time saver!

An integrated front bumper and camlock adjusters make moving or folding the handles for storage as quick and simple as possible. This is a hardworking mower for any medium - larger garden and includes a two-year warranty.
