Atco Quattro 19SH V 4-IN-1

MT-AOMWQUATTRO19SHV

Description

Atco Quattro 19SH V 4-IN-1

Featuring infinitely adjustable ground speed control and combining four in one mowing with a seven-step cutting height range, the feature-packed ATCO Quattro 19SH V offers the sort of versatility that's essential for successfully managing a multitude of British lawn conditions!

Powering the Quattro 19SH V is a powerful Honda GCVx170 engine, which thanks to its overhead valve configuration, offers superior fuel economy, quiet operation and low emission performance.

The Honda GCVx170 engine with Autochoke makes the starting process quick and easy; while a capacious 0.91-litre fuel tank ensures top-up stops will be few and far between. The underside of the durable aluminium/galvanised steel deck on the Quattro 19SH V is easy to keep free of corrosive debris accumulation, thanks to ATCO's provision of a washing link - simply attach your hosepipe, spin the blade and the job's done!

The Quattro 19SH V employs a Twinclip blade with four cutting edges rather than two - these ensure cut grass is finely shredded before being blown into the generous 70-litre catcher, which improves collecting capacity by an impressive 20%, and minimises downtime caused by emptying stops. The Twinclip blade also optimises mulching performance. Blending three-position handlebar height adjustment with VCS vibration damping, the Quattro 19SH V excels in terms of user comfort. The handles fold down over the engine for space-saving storage.

With its 48cm (19") cutting width this model is ideal for larger areas up to 1000m².

We are an authorised [Atco](#) dealer and can provide full service back up and maintenance for your Atco equipment.
