Description

Husqvarna Automower 305

Husqvarna Automower® 305 features a compact design and is ideal for smaller, complex gardens up to 600 m², easily handling slopes with an incline of 40%. The four-wheel platform together with systematic passage handling provide effective operation, and the triple-search function facilitates the fastest way home to the charging station. Equipped with weather timer which adjusts the mowing frequency to match the grass growth rate, frost guard, automatic passage handling for reliable navigation of narrow areas and Automower® Connect@Home. Easily cleaned and washed off with a hose.

Automower® Connect@HOME - The Bluetooth® solution, Automower® Connect@HOME, gives you full control of the mower right in your smartphone. You can easily send start, stop and park commands, check and adjust the settings. Bluetooth® communication up to 30 metres range. Standard for all 300-400 series.

Unique Cutting System - Husqvarna Automower® cuts just a little but frequently, which assures a nice and healthy lawn. It is equipped with sharp razor-like blades made of strong carbon steel mounted on a robust cutting disc system. This provides for efficient operation and extremely low energy consumption.
