## Description

### Honda 36v 4Ah Battery - DP3640XA

With a single Honda Li-ion battery, you can power any of the different tools within the Honda cordless range. This means that, not only can you swap between tools easily and quickly, but you don't need to keep a different battery for every product you own.

Built to deliver for as long as you need it to, each battery is built on Thermo Smart technology for higher performance and significantly longer battery life. A constant high current provides unwavering performance, whilst an LCD screen displays the battery life and charge level at all times. Recharging is quiet and fast, thanks to Honda's chargers that can deliver 100% capacity in just 35 minutes with the 4Ah battery.

All Honda Li-ion batteries have unique, heat-conducting housings to extend their life, as well as compact castings that can withstand the bumps and knocks they will encounter in everyday use. Crucially, they can be changed in seconds, so you can work without interruption. Honda Li-ion batteries are built for gardeners who need to work all day, every day, until the job is done.

#### **Run Times from 4Ah battery:**

With HHT 36AXB Brushcutter with Nylon: 33mins

With HHT 36AXB Brushcutter with Blade: 60 mins

With HHH 36AXB Hedge trimmer: 56 mins

With HHB 36AXB Blower: 12 mins

\*Indicative figures only. Varies depending on conditions

**Charge Time:** 35 minutes (100%) / 25 minutes (80%)
