Hayter Osprey 46 – 613A AutoDrive 60v Cordless Lawnmower (Mower Only)

HY-MW613

Our Price: £394

Description

Hayter Osprey 46 - 613A Cordless Lawnmower

Offering the same power as a petrol mower but with a 60v Max battery-powered DC brushless motor, you can experience a mower which has no compromise on power and emits no engine fumes making mowing a pleasure to do.

The Osprey 48 60V gives you the choice to cut and collect or rear discharge your clippings. So instead of collecting you grass clippings they are automatically discharged out of the back of the lawnmower onto the lawn. This is ideal when cutting very long grass as you're not filling up the grass bag too quickly or putting too much strain on the machine while mowing.

Features and Benefits:

- Compatible with Toro's Flex-Force Power System®. Simply remove the 60V battery and transfer it into one of the compatible Toro® 60V garden tools for complete ease and flexibility.
- Choose what you want to do with your grass clippings between cut and collect or rear discharge.
- Self propelled - Let the lawnmower do all the work so you can simply walk behind and steer.
- Easy-wash hose connector allows you to clean the underside of your Harrier without getting your hands dirty.
- Quickly collect any unwanted leaves from your lawn by setting your height-of-cut one position above your grass.
- Set the power at the highest setting for even tougher conditions
- Folding handlebars reduces the storage space needed.

We are an authorised **Hayter** dealer and can provide full service support and maintenance for your Hayter product.
