

Hayter Harrier 41 – 377A 60V Cordless Variable Speed (Mower only)

HY-MWHA377

Our Price: £874

Description

Hayter Harrier 41 60V Cordless Lawnmower

Introducing the Harrier® 41 cordless lawn mower. This alternative to a traditional petrol mower uses our interchangeable 60V** Battery and will make easy work of your small, flat formal garden (up to 300 square metres).

This self-propelled engine with an adjustable speed of 1.8 - 3.0mph in auto mode and 2.1 - 3.3 mph in Boost Max mode, allows you to mow at your pace and the two piece rear roller will easily allow you to turn at the end of each pass, avoiding any unsightly marking of the lawn in the process and leaving you with beautiful garden stripes.

Additional benefits:

- Set the power at the highest setting for event tougher conditions
- A two-piece, ribbed rear roller provides superior traction, manoeuvrability and avoids turf marking when turning.
- Easy to use height-of-cut lever. Choose between seven different heights (13 - 60mm) for your desired grass length.
- Easy-wash hose connector allows you to clean the underside of your Harrier® without getting your hands dirty.
- Lifetime Deck Warranty† against any cracking or breaking of the aluminium deck during normal use.
- Self-propelled. Let the lawnmower do all of the work so you can simply walk behind and steer.
- Trim Side deck design means you can cut right to the edge – ideal for around borders, raised flower beds and retaining walls.

We are an authorised **Hayter** dealer and can provide full service support and maintenance for your Hayter product.
