Description

Portek Hawk Eyes Silent Wind Driven Bird Scarer

Visual bird scarers or deterrents are designed to trick birds into thinking they are under threat with a natural sense of fear and this Hawk Eyes scarer certainly adds some realism.

Features four well know visual bird scaring techniques:-

- Natures warning colours
- Reflected light
- Large predator eyes
- Movement
- Ideal for agricultural crops, market gardens, allotments, vineyards, orchards, home gardens & airports to name a few.

For optimum crop protection, several strategically placed Hawk Eyes are needed using a mix of red & yellow globes.
