Our Price: £10

Description

CarPlan 5L Plastic Fuel Can (All Colours)

Old metal fuel cans can become rusty over time which can result in clogging your carburettor and associated running issues.

The CarPlan Tetracans have a 5 litre capacity and in manufacture undergo rigorous testing, to ensure the highest quality is met.

Includes a flexible pouring spout, sized to ensure there is no misfuelling.

Colour Coded for safe identification of all fuel types: UNLEADED (Green), LEADED PETROL (Red) & BLACK (Diesel).

Remember to use a **Fuel Stabilizer** if storing petrol for long periods of time. This will protect the fuel from going stale.
