Mountfield SP53 21" Petrol Lawn Mower

MT-SP53

Description

Mountfield SP53 21" Petrol Lawn Mower

The SP53 is a great self-propelled, petrol-driven mower. The powerful, reliable STIGA ST170 Autochoke engine and the 51cm cutting width combine to produce a hardworking, dependable and easy to use mower.

With a robust steel chassis, wide cutting width and powerful engine the SP53 will make light work of all lengths of grass. It has a centralised lever to adjust the cutting height of the blade – with five different positions to choose from depending on the length of grass you are cutting – and clippings are collected in a capacious 60-litre canvas collection bag.

To save time and to add nutrients to your lawn, simply fit the mulching plug (supplied with the mower) and clippings are finely cut and redistributed back onto the lawn surface as you mow.

A skid plate is fitted at the front of the cutter deck- this ensures the best possible finish to the lawn and minimises the risk of scalping on uneven surfaces. Storing the SP53 is easy – simply clean off any grass, fold down the handles and store in your shed or garage. It is also backed by a two-year warranty.
