Description

Hammerite Special Metals Primer

The Hammerite Special Metals Primer has been specially formulated for galvanised metal, aluminium, chrome brass, copper stainless steel and other non-ferrous metals. It provides a smooth finish for an ideal topcoat adhesion. Can be used inside & out, only one coat is required.

Preparation required varies according to the surface to be painted but note that preparation is the key to a successful outcome of any decorating task and it may well take longer than the painting of the area itself.

Available in 500ml

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
