## Description

### Honda Izy HRG466PK Petrol Lawn Mower

New for the 2020 season, the new range of Izy lawnmowers feature the latest Euro-5 compliant, four-stroke GCVx engines. These new engines offer enhanced combustion by creating stronger turbulence inside the chamber, while also being more tolerant to lower quality fuels. All Izy's have a new Auto Choke system, offering improved temperature sensing and choke optimisation, for easier starting in the most challenging conditions.

The new range also includes easier access to serviceable parts such as the oil drain and spark plug, a much larger fuel filler cap, and tool-free access to the air filter.
