Our Price: £410

Description

Hendon HPM300 10ft Adjustable Legs Tripod Ladder

*** CLICK & COLLECT, FREE LOCAL BRANCH & NATIONWIDE DELIVERY (Excludes Congestion Charging Zone) ***

With three fully adjustable legs, this is the most versatile Tripod ladder in the Hendon range, offering the same stable performance as the standard Tripod ladder (GMF), but with further opportunities thanks to its adaptability.

Providing a secure footing even on slopes and uneven ground, versatile leg heights mean you can safely work on different levels, such as steps.

The telescopic rear third leg is adjustable in 150mm stages, while the front two legs can be independently adjusted in 50mm steps with spring loading pins so even at quite extreme angles, you're afforded a stable, safe, comfortable work position.

Like the standard Tripod ladder, it has been manufactured from welded aluminium alloy extrusions, making it lightweight yet strong, with a Safe Working Load of 150kg (330lb).

For otherwise inaccessible places, the three leg adjustable Tripod is the perfect solution.

Overall weight: 11.2kg. 10 Steps.
