

Stihl BR 500 Backpack Leaf Blower

SH-42820111628

Our Price: £620

Description

Stihl BR 500 Backpack Leaf Blower

The Stihl BR 500 Backpack Leaf Blower is a professional backpack blower for cleaning large areas. Incredibly quiet, making it ideal for use in low-noise areas. Excellent anti-vibration system and ergonomic carrying frame. Innovative 4-MIX® engine for a more pleasant sound, low fuel consumption and low emissions.

Stihl 4-mix engine - You can always rely on STIHL to keep setting new benchmarks this time with 4-stroke mixed lubrication technology. The STIHL 4-MIX® engine, which runs on a fuel-oil mix just like a 2-stroke, offers the benefits without the compromises of 4-stroke power. STIHL 4-MIX® engine technology provides fast acceleration, more power, added torque, lower noise, reduced emissions and increased fuel efficiency to complete jobs quickly and more easily.

Built in sound damper - The BR 500 with built-in sound damper is built for use in noise-sensitive areas. The measured noise reduction for the human ear is up to 59% compared to the previous model** Despite the relatively low noise emission, the BR 500 is a strong, reliable helper with high performance. **Measured according to EN-ISO22868.

Anti-vibration system - Intense vibration at the handles of power tools can lead to long-term effects on blood vessels in the hands and arms. STIHL has therefore developed an effective anti-vibration system whereby the oscillations from the machine's engine are dampened which significantly reduces vibrations at the handles.

Multi-function control handle - Easy, comfortable thumb-operated control means the operator's hand never leaves the handle

Ergonomic harness - Evenly distributes the weight between the user's shoulders, back, hips and upper thighs. With soft padding for increased comfort during prolonged use and when working on large areas.
