Wilkinson Sword Razorcut Pro Angled Head Bypass Pruner

When it comes to all things wood whether it be tree care, pruning shrubs or hedges, Wilkinson Sword are in their element, with over 100 years of cutting excellence and these pruners are no exception to the rule. In our opinion, the perfect choice if you are searching for a durable, comfortable, high-quality Angled Pruner able to cut sharply and cleanly.

Traditionally designed with two opening positions depending on the users hand size, the Razorcut Angled Bypass Pruner brings together power and precision into one cutting tool. With an ultra sharp high quality Japanese SK3 steel blade and an Angled cutting head this is the ideal alternative to prevent overstretching of the hand during the cutting process.

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
