Our Price: £13

Description

Swarfega Duck Oil Multi Purpose Service Spray 500ml

A silicone-free, non-conductive, multi-purpose service spray which can be used on almost any surface without impairing performance and forms a protective seal to help protect metal parts against rust for up to 12 months.

Can be used as a damp starter and light degreaser. It insulates electrics due to its high dielectric strength and suitable for use on all types of electrical equipment.

Duck Oil penetrates tight tolerances to release seized nuts, bolts and components and the exceptionally low surface tension means it can easily permeate, lubricate and protect with no need to dismantle machinery and parts.

Each litre of Duck Oil is enough to cover 20m2 and the silicon free formula means it is compatible for use in paint shops too.

Simple to use aerosol spray on and to remove, wipe with a cloth or dip in a solvent degreaser.
