

Private: Atco GT38H

MT-ORDGT38H

Our Price: £2329

Description

The Atco GT38H shares the same chassis as the GT30H and is powered by a Briggs & Stratton Series 4165 engine. The tractor features a 98cm twin blade cutter deck with anti-scalp wheels that provides an excellent finish and powerful rear discharge of cut grass into the 240 litre collector box.

A buzzer sounds to let the driver know that the collector is full and needs emptying - it can be emptied without leaving the drivers seat. Blades are engaged and disengaged at the flick of a switch through an electronic clutch. Cutting height is adjustable from 25mm to 80mm.

A snap on hose connection on the cutter deck facilitates cleaning after use.

A fully hydrostatic transmission system makes this tractor a real pleasure to use with forward and reverse speed controlled through the use of a foot pedal. The light steering, seating, ergonomics and ride quality are outstanding.

A stylish front bumper is a standard fitting, optional accessories include mulching kit, deflector and tow hitch.

Attributes

Technical Data	
Lawn Size	Lawn 7 (3 acres)
Transmission	Hydrostatic Transmission
Width Of Cut	98cm (38?)

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
