Atco GT43HR Side Discharge Lawn Tractor

MT-AORDGT43HR

Our Price: £2899

Description

Atco GT43HR Side Discharge Lawn Tractor

The integrated technology of the overhead valve engine reduces fuel consumption and expenditure, creating more environmentally-sympathetic emissions with a sizeable 6-litre fuel tank capacity to lower fuel refills. Meanwhile, the tractor's dual crankshaft design, electromagnetic blade engagement, ergonomic steering, and pedal-controlled hydrostatic transmission enable a smoother, more controllable driving experience.

Not just for long grass, when used with a mulching kit that is available separately the GT 43HR can achieve superb results on formal, frequently cut lawns, with the mulched clippings acting as an effective, 100% organic fertiliser.
With anti-scalp wheels for negotiating rugged areas and a massive 108cm cutting width, the GT43HR is the essential must-have tractor for working around larger areas.
The GT 43HR garden tractor is a perfect match for areas up to 8000m2 (2.5 acres).

We are an authorised Atco dealer and can provide full service back up and maintenance for your Atco equipment.
