

Private: Atco GTL 46HR Twin

MT-AORDGT46HR

Our Price: £3399

Description

The GTL 46HR Twin is powered by a 724cc Briggs & Stratton Intek 8240 (EFM) V-Twin engine, providing plenty of power to handle tough conditions.

This heavy duty garden tractor is designed for intensive use; with a strong box section chassis, cast iron front axle, and large 20 inch rear wheels. The lightweight, smooth steering and the comfortable, high back seat, make this tractor a pleasure to use. You can confidently use this machine to maintain many areas other than lawns, such as paddocks, orchards and wild flower meadows.

The large 15 litre fuel tank gives the freedom to operate for long periods without needing to refuel and is easily accessed from the rear mounted filler cap.

The heavy duty 121cm (45") cutting deck has three untimed blades, driven using premium quality pulleys and a Kevlar reinforced belt. The fully floating deck is constructed from steel that is 25% thicker than usual, along with lateral structural reinforcements and 6 anti-scalp wheels. Blades optimized for side discharge performance ensure superb performance in arduous conditions. Side discharge comes into its own in longer grass conditions. It leaves a uniform finish and will tidy up a lawn which has grown too long for successful mulching. A mulching plug and set of mulching blades are also included to allow the efficient recycling of grass clippings back into the soil, returning valuable nutrients and saving time without sacrificing the standard of finish.

A multi-functional dashboard provides valuable operational information at a glance.

This robust machine is extremely versatile, more manoeuvrable and at a much lower price than a compact tractor, it also makes a very useful towing machine as well as coping with all types of grass cutting scenarios.

Attributes

Technical Data	
Engine size	724cc
Fuel	Petrol
Transmission	Hydrostatic Transmission
Width of cut	48" (121cm)

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
